Dear Tim,

I personally wanted to thank you for the generous time you have taken out of your schedule to be our guest clinician at Centenary College. We wanted to have a clinician come to our facility that would help our students with their mental as well as physical abilities as riders, and you did just that. You combined your sports psychology lecture with your riding clinic and it was very well received by the students. The students thought your sports psychology lecture was very touching, since they share some of the same competition jitters. They enjoyed hearing how a professional clears their mind to help them focus on their class. The sports psychology lecture then rolled into the following day of the riding clinic, which the students thoroughly enjoyed focusing on one or two details of their riding, rather than twenty at the same time. All the students had a wonderful time in the clinic, and said they learned a great deal.

Thank you very much for coming to our college to host this clinic. We hope that sometime in the future you could come back. I hope you had as much fun as the students did participating in the clinic, as well as the faculty and staff auditing.

Sincerely,
